OIL CONSERVATION COMMISSION  
SANTA FE, NEW MEXICO

Hobbs, New Mexico  
(Place)

January 4, 1955  
(Date)

Gentlemen:

State AD

Following is a Notice of Intention to do certain work as described below at the

Cities Production Corporation

(Company or Operator)

Well No. 3 in P  
(Unit)

SE 1/4 SE 1/4 of Sec. 22, T. 10-S, R. 32-E, NMPM., Mescalero-Pennsylvanian Pool  
(40-acre Subdivision)

Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK  
(FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

State AD Well No. 3 was potentialized for 156 barrel of oil and 39 barrel of water on September 15, 1953. Production has declined sharply. It is proposed to fracture this well with 10,000 gallons of Dolofrac with 5000# of sand to stimulate production. The dolofrac contains a breaker that will prevent acid reaction until it is back into the formation giving an effect similar to retarded acid. The sand at 1/2#/gallon should help in creating drainage channels. Electric logs indicate numerous shaley streaks that should take treatment.
