

Page 8 - Samples
Viersen & Brown, Robinson #1

- 2510 2520 Massive and some crystalline anhydrite 15%, red and a small percentage of green shale 85%, trace red sandstone
- 2530 Massive and some crystalline anhydrite 45%, red, small percentage green shale 55%
- 2540 Massive, some crystalline anhydrite 60%, red, small percentage green shale 40%
- 2550 Massive, some crystalline anhydrite 75%, red, small percentage green shale 25%
- 2560 Massive and crystalline anhydrite 55%, red, small percentage green shale 45%, trace red sandstone
- 2565 Massive, some crystalline anhydrite 75%, red, small percentage green shale 25%, trace red sandstone
- 2575 Massive and little crystalline anhydrite 60%, red shale 40%
- 2585 Massive and little crystalline anhydrite 35%, red shale 65%
- 2595 Massive and little crystalline anhydrite 55%, red shale 45%
- 2605 Massive and little crystalline anhydrite 70%, red and green shale 30%
- 2615 Massive and little crystalline anhydrite 75%, red and green shale 25%
- 2625 Massive and little crystalline anhydrite 75%, red and green shale 25%
- 2635 Massive and little crystalline anhydrite 90%, red shale 10%
- 2645 Massive and little crystalline anhydrite 95%, red and green shale 5%
- 2655 Massive and little crystalline anhydrite 95%, red and green shale 5%
- 2665 Massive and little crystalline anhydrite 100%, red and green shale trace
- 2675 Massive and little crystalline anhydrite 100%, red and green shale trace
- 2685 Massive anhydrite 25%, red shale 75%, polyhalite trace
- 2695 Massive anhydrite 30%, red, green and brown shale 70%, polyhalite trace
- 2705 Massive anhydrite 35%, red, green and brown shale 65%, polyhalite trace
- 2715 Massive anhydrite 30%, red, green and brown shale 60%, polyhalite trace
- 2725 Massive anhydrite 25%, red, green and brown shale 65%, polyhalite trace
- 2735 Massive anhydrite 35%, red, green and brown shale 60%, polyhalite ~~trace~~ 5%
- 2745 Massive anhydrite 40%, red, green and brown shale 60%, polyhalite trace
- 2755 Massive anhydrite 20%, red, green and brown shale 80%, polyhalite trace, white limestone trace
