Dear Pete:

Enclosed are copies of letters from Mr. Thos.
A. Ross and a copy of my reply of this date.

I am at a loss to understand why we do not
have more information regarding this well, unless it
is on Government land. Will you kindly investigate
and advise me just what notices, reports, etc. we
have for this well. Also make a special effort to
obtain the log if this can be done. If you are unable
to get any results, perhaps you can give us some leads
that can be followed up.

Very truly yours,

President & Director
