

CC : F. J. Vesely

September 23, 1936

Mr. Thos. A. Ross  
P. O. Box 155  
Montrose, Georgia

Dear Sir:

This will acknowledge receipt of your letter of September 15.

According to our meager records, the Vierson and Brown well was located in the NE 1/4, Sec. 14, T. 11 S., R. 32 E. Drilling was begun on October 6, 1935 and the well was plugged and abandoned about March 1, 1936, at a depth of 5026 feet. No shows of oil or gas were officially reported in the Scout reports for the period during which the well was being drilled.

I regret very much to have to advise you that we have not as yet obtained a copy of the log of this well. Obviously it is overdue. I am taking the matter up with Mr. F. J. Vesely, State Oil and Gas Inspector, Carlsbad, New Mexico, and requesting him to obtain copy of the log if this is possible. If we are successful, we shall be glad to supply you with a copy.

Very truly yours,

President & Director

Dear Sir:

This will acknowledge receipt of your letter of  
September 15.

According to our earlier records, the Verson and  
Brown well was located in the NW 1/4 Sec. 14, T. 11 S.,  
R. 32 E. Drilling was begun on October 6, 1935 and the  
well was plugged and abandoned about March 1, 1936, at  
a depth of 5026 feet. No shows of oil or gas were of-  
ficially reported in the scout reports for the period  
during which the well was being drilled.

I regret very much to have to advise you that  
we have not as yet obtained a copy of the log of this  
well. Obviously it is overdue. I am taking the matter  
up with Mr. F. J. Vesely, State Oil and Gas Inspector,  
Carlsbad, New Mexico, and requesting him to obtain  
a copy of the log if this is possible. If we are success-  
ful, we shall be glad to supply you with a copy.

Very truly yours,

President & Director
