Dr Wells,  
Manager School of Mines,  
Socorro, N.M.

Dear Sir ,

I would like to get a copy of the Vierson & Brown well log drilled near Cap Rock, Lea County, and drilled last Jan I believe it was called the Vierson - Brown Well, Richardson No 1. I wrote for a copy of this log, to you as State Geologist, and that was away on in April, and was informed by you that the log would not be available till July or August .

Before taking out a fresh M/O for the 50 ct fee, which I understand is the requisite amount, I would be glad to know if you are still State Geologist, and if the log is yet available to the public.

This is the first log that I know that a log has been held up in this manner, and for such a time.

Yours truly,

Thos. A. Ross.
