Midland, Texas

Gentlemen:

This office received your notification that the location for your plugged and abandoned Moore Well No. 1 in Unit J of Section 24, T-11-S, R-32-E was ready for inspection on October 29, 1958. Upon making an inspection of the location, however, Mr. John Runyan of this office found that the pits and cellar had not been filled and the rat and mouse holes are covered with five gallon buckets.

Please see that this location is cleared in compliance with Commission rules and regulations and advise this office when the work has been done so that a final inspection may be made.

Yours very truly,

OIL CONSERVATION COMMISSION

R. F. Montgomery
Proration Manager
