17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

It is proposed to study recompletion possibilities of Permo-Penn gas zone. An evaluation is currently being made and will hopefully be completed by 1-1-75. Samedan, as operator, respectfully requests that the New Mexico Oil Conservation Commission grant at least a one (1) year extension to the temporarily abandoned status of this well so that the evaluation can be completed. The well was temporarily abandoned in 7-72 due to uneconomical production from current producing zones.

This report is filed in compliance with your Memorandum dated September 13, 1974 concerning shut-in, temporary abandoned, and unreported wells.

Expires 10/1/75
