Gentlemen:

We have received Form C-103 reporting the pulling of casing from the hole and also reporting plugging operations on the L. H. Chambers #2, which we assume to be a final report. This form cannot be signed until an inspection has been made of the location to see that Paragraph "C" of Rule 1106 of the Oil Conservation Commission Rules and Regulations (concerning filling pits and levelling of the land) has been complied with. We shall appreciate it if you will inform this office when these regulations have been complied with so that an inspection may be made, and we will hold your Form C-103 in this office until we have heard from you.
