Re: Form C-105 State #34-8

Gentlemen:

We have received Form C-103 reporting the results of plugging on your State #34-8 in Section 8-12S-92E, however a check of the file shows that Form C-105 has not been filed on this well. This form must be filed before Form C-103 can be approved.

We shall appreciate it, also, if you will let us know when this location has been cleaned and levelled, so that the regular inspection may be made.

Yours very truly,

OIL CONSERVATION COMMISSION

A. L. Porter, Jr.
Proration Manager
