Re: Plugging William N. Glenn #1-L
Sec. 13-12-32

Gentlemen:

Enclosed is Form C-103 on your abandoned location in Section 13-12-32, NW SW, which was received by this office July 12th. Please note that this form is unsigned, and does not state how the well was plugged, and whether or not it was plugged in accordance with the program approved on Form C-102 dated May 2, 1955. A check of the file shows also that we do not have a well record, Form C-105, on this well.

If you will make the necessary corrections on Form C-103 and file Form C-105, an inspection of the location will be made and your forms approved.

Yours very truly,

OIL CONSERVATION COMMISSION

A. L. Porter, Jr.
