

NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

NOTICE OF INTENTION TO DRILL

Notice must be given to the Oil Conservation Commission or its proper agent and approval obtained before drilling begins. If changes in the proposed plan are considered advisable a copy of this notice showing such changes will be returned to the sender. Submit this notice in triplicate. One copy will be returned following approval. See additional instruction in Rules and Regulations of the Commission.

Lubbock, Texas 5-2-44

OIL CONSERVATION COMMISSION.
Santa Fe, New Mexico.

Gentlemen:

You are hereby notified that it is our intention to commence the drilling of a well to be known as_____

Malco Refineries, Inc. State "A" Well No. 2 in NE/SW/NE
Company or Operator Lease

of Sec. 31, T. 12S., R. 32E., N. M. P. M., Caprock Field, Lea County
N. The well is 1650 feet (N) (S) of the North line and 1650 feet

The well is 1650 feet (N.) (S.) of the North line and 1650 feet (E.) (W.) of the East line of Section 31

(Give location from section or other legal subdivision lines. Cross out wrong directions)

If state land the oil and gas lease is No. B-9676 Assignment No. Original Lease

If patented land the owner is _____

Address _____

If government land the permittee is _____

Address _____

The lessee is Malco Refineries, Inc.

Address Artesia, New Mexico

We propose to drill well with drilling equipment as follows:

Rotary to 3000' Cable tools to 3030'

The status of a bond for this well in conformance with Rule 39 of the General Rules and Regulations of the Commission is as follows:_____

We propose to use the following strings of casing and to land or cement them as indicated:

Size of Hole	Size of Casing	Weight Per Foot	New or Second Hand	Depth	Landed or Cemented	Sacks Cement
10 3/4	8 5/8	30	New	250	Cemented	150
7 7/8	5 1/2	14	New	3000	Cemented	500

If changes in the above plan become advisable we will notify you before cementing or landing casing. We estimate that the first productive oil and gas sand should occur at a depth of about 3030 feet.

Additional information: Temperature survey will be run on the cement job behind the 5 1/2" casing.

Approved _____, 19____
except as follows:

Sincerely yours,

Malco Refineries, Inc.
Company or Operator

Company or Operator

1. The first step in the process of identifying a problem is to define the problem. This involves identifying the symptoms and the underlying causes of the problem. Once the problem has been defined, the next step is to identify the stakeholders who are affected by the problem. This involves identifying the individuals, groups, and organizations that are impacted by the problem. The third step is to identify the resources that are available to address the problem. This involves identifying the personnel, equipment, and information that are needed to address the problem. The fourth step is to develop a plan of action. This involves identifying the specific steps that need to be taken to address the problem. The fifth step is to implement the plan of action. This involves putting the plan into action and monitoring the progress. The sixth step is to evaluate the results. This involves assessing the effectiveness of the plan and making adjustments as needed. The seventh step is to document the process. This involves recording the steps that were taken and the results that were achieved. The eighth step is to communicate the results. This involves sharing the results with the stakeholders and the public. The ninth step is to review the process. This involves reflecting on the process and identifying areas for improvement. The tenth step is to repeat the process. This involves repeating the steps as needed to address the problem.
