Re: Midwest Oil Corp. Cross #1
Vada (Penn) Pool, Lea County
New Mexico

Gentlemen:

Midwest Oil Corporation requests approval of an unorthodox location for the captioned well. The attached plat shows the offset operators and location of the well at 330' FSL and 1650' FEL of section 35, T-9-S, R-33-E.

Neville G. Penrose, Inc. originally drilled and plugged the well at this location in 1958. Midwest Oil Corporation re-entered the well in December, 1968, and completed it as a Bough "C" producer. The necessary forms for the re-entering and completing the well have been filed with the New Mexico Oil Conservation Commission in Hobbs.

The offset operators listed below have been notified by a copy of this letter sent by registered mail.

BTA Oil Producers
Redfern Development Corporation

Very truly yours,

MIDWEST OIL CORPORATION

Carolyn Turner
