Re: Condition of location on  
State Lane Ranch Unit #1  
Section 9-10-33

Gentlemen:

A check of the file on the above-named location shows that you filed Form C-103 reporting the results of plugging on this well on October 10, 1955. A check of the well site by Mr. Armstrong, however, shows that the pits have not been filled, or the location cleaned and levelled.

We shall appreciate it if you will check into this matter and let us know when this work has been done so that another inspection may be made and the file closed on this well.

Yours very truly,

OIL CONSERVATION COMMISSION
