Re: Recompletion of Midwest State #1-J  
Section 23, T10S, R33E

Gentlemen:

Your intention to plug back from the Penn to the Three Brothers zone of the Wolfcamp was approved February 19, 1988. To date no progress reports have been received. We presume this work was not done. Our records indicate this well has been TA since it was re-entered by Maurice L. Brown in 1977.

We feel any further extension of TA status is unwarranted since the re-entry was non-productive. Therefore, as requested in our December 15, 1987, and February 19, 1988, letters you are requested to submit your proposed plugging procedure within 30 days and commence plugging operations within 90 days, or this matter will be set for a show-causing hearing.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I
