Re: Recompletion of Midwest State #1-J
Section 23, T10S, R33E

Gentlemen:

Your intention to plug back from the Penn to the Three Brothers zone of the Wolfcamp has been approved. This will not be a recompletion from one pool to another since the Inbe Permo Penn Pool produces from the Penn and the Wolfcamp.

However, if the well is completed as a producer in the Three Brothers zone of the Wolfcamp, you will need to submit Form C-102 outlining 80-acres and showing the producing formation as Wolfcamp. The pool will remain Inbe Permo Penn.

In reference to my December 15, 1987 letter regarding the need to plug this well, I would point out that if this recompletion is nonproductive, we will expect you to file an intention to plug and abandon along with your report on the attempted recompletion.

Very truly yours,

OIL CONSERVATION DIVISION
