Mr. R. F. Montgomery, Proration Manager
New Mexico Oil Conservation Commission
P. O. Box 2045
Hobbs, New Mexico

Dear Sir:

We are returning to you the completed form notifying you of the work done on the following abandoned locations:

State of New Mexico "D" No. 1 - H-31-10-33

State of New Mexico "E" No. 1 - I-31-10-33

The locations have been cleaned up and are ready for your inspection and approval.

The reserve pit at the State of New Mexico "D" No. 1 has not been filled. A considerable amount of caliche was removed from this pit and was used to construct lease roads. The surface lessee, Mr. Lane, has requested that we fence the pit until it dries thoroughly to keep his livestock from the pit, and is not requiring us to fill the pit.

Very truly yours,

CABOT CARBON COMPANY
