

4,445 - 4,450	Finely crys., dense gray dolomitic limestone. Little glassy to white anhydrite. No staining.
4,450 - 4,510	Dark, brownish gray, finely crys. dense dolomitic limestone.
	Trace of heavy oil 4,480 - 4,510.
- 4,550	Limestone as above. Anhydritic. Scattered oil staining.
4,550 - 4,530	Finely crys. brownish gray dolomitic limestone. Some white to glassy anhydrite.
4,530 - 4,620	Finely crys. light to dark gray dolomitic limestone. Some white to glassy anhydrite.
4,620 - 4,670	Dense finely crys. light gray limestone. Little white anhydrite.
4,670 - 4,720	Dense, tannish white limestone.
4,720 - 4,750	Tannish to brownish to gray to black dense limestone.
4,750 - 4,780	White to tannish, dense limestone.
4,780 - 4,850	White to tannish to brown to dark gray limestone.
4,850 - 4,950	White to tannish dense limestone.
4,950 - 4,970	Light to med. gray, finely crys. dense limestone.
4,970 - 4,980	White to light tannish, finely crys. dense limestone. Trace of stain.
4,980 - 4,990	Light tannish, finely crys. dense limestone. Trace of stain.
4,990 - 5,010	Light to med. gray, finely crys. dense limestone.
5,010 - 5,080	Light gray to tannish limestone - anhydrite mixture.
5,080 - 5,110	White limestone & glassy anhydrite mixture.
5,110 - 5,120	Tannish, finely crys. dense limestone. Little glassy anhydrite.
5,120 - 5,130	Light to med. gray, dense, finely crys. limestone.
5,130 - 5,140	Med. gray to brownish, dense, finely crys. limestone.
5,140 - 5,150	As above, plus remnant of Glorieta Sd.
