Land Description

Section B

State Lease E-1565

The tract to be dedicated is only the 40 acres, the NE 1/4 SW 1/4 of Sec. 10-11E-33N. There was no intention whatever to create an 80 acre spacing but merely to show that the entire lease, NE 1/2 SW 1/4, will be validated by production, if any, by the State 1-7 well. In fact, we do not at this time desire 80 acre spacing. Several attempts to procure the C-128 forms have given us nothing. The forms enclosed were supplied and made by John W. West, Surveyor. This is the reason we are using the same forms to designate the dedicated acreage in accordance with your letter of August 7, 1957.

This is to certify that the information in Section A above is true and complete to the best of my knowledge and belief.
