nent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Well is currently producing from four holes in the Wolfcamp section at 8694'. We propose to perforate five additional feet of pay in the interval 8685' to 8690', and acidize with 4000 gallons of regular acid. This work is scheduled to begin on July 12, 1966.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
