Re: Kelsay #1-M 28-11-33
North Bagley Permo Penn Pool

Gentlemen:

From our printout of wells producing without allowables, it appears the above-referenced well has been producing a small amount of casinghead gas but does not have an allowable.

Our records indicate the well has been TA for a number of years.

Please file Form C-116, gas/oil ratio test marked "special" so an allowable can be assigned. If the well is TA and not producing, please discontinue reporting this production on your monthly report.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
