

OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission. Indicate nature of report by checking below.

REPORT ON BEGINNING DRILLING OPERATIONS		REPORT ON REPAIRING WELL	
REPORT ON RESULT OF SHOOTING OR CHEMICAL TREATMENT OF WELL		REPORT ON PULLING OR OTHERWISE ALTERING CASING

UNITED STATES DEPARTMENT OF AGRICULTURE

WASHINGTON, D. C.

Report of the Director of the Bureau of Plant Industry
for the year ending June 30, 1911

The Bureau of Plant Industry was organized on July 1, 1905, by the transfer of the plant industry work of the United States Department of Agriculture from the Bureau of Entomology and Plant Quarantine to the Bureau of Plant Industry. The Bureau has since that time been engaged in the study of the diseases and pests of plants, and in the development of methods for their control.

The Bureau has been successful in its work, and has been able to secure the cooperation of the States and Territories in the study of plant diseases and pests. The Bureau has also been successful in securing the cooperation of the States and Territories in the development of methods for the control of plant diseases and pests. The Bureau has also been successful in securing the cooperation of the States and Territories in the development of methods for the control of plant diseases and pests.
