12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

We have recently completed this well in the Bagley Lower Penn (Gas). The perfs in the Bagley Penn (8971 - 9397) are still open but are currently plugged off. We have a packer set at 9504 and the Casing is SI isolating the Bagley Lower Penn (Gas) perfs (9748 - 9862). We would like permission to test the Bagley Lower Penn (Gas) for 30 days so that we can evaluate the production. We will then either squeeze off the Bagley Penn perfs or we will file the proper paper work to request permission to downhole commingle the two zones.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
