

OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELLS

RECEIVED
FEB 19 1951

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below.

THE HISTORY OF THE

REPUBLIC OF

THE UNITED STATES OF AMERICA

The history of the Republic of the United States of America is a story of the struggle for freedom and justice. It is a story of the people who have fought for the principles of liberty and equality, and who have built a nation that stands as a beacon of hope for all who seek freedom.

The story begins with the first settlers who came to this land in search of a better life. They found a land of opportunity, but they also found a land of hardship. They fought against the elements of nature, and they fought against the injustices of the world. They built a nation that was based on the principles of liberty and justice, and they passed on these principles to their children.

The story continues with the growth of the nation. The people of the United States have fought for the right to be heard, and they have won. They have fought for the right to be free, and they have won. They have fought for the right to be equal, and they have won. They have built a nation that is based on the principles of liberty and justice, and they have passed on these principles to their children.

The story ends with the present. The people of the United States are still fighting for the principles of liberty and justice. They are still fighting for the right to be heard, and they are still fighting for the right to be free. They are still fighting for the right to be equal, and they are still fighting for the right to be heard. They are still building a nation that is based on the principles of liberty and justice, and they are still passing on these principles to their children.
