Gentlemen:

Some time ago we received a complaint from the State Engineer Office that your Rambouillet Atlantic No. 1 located in Unit C of Section 32, T-11-S, R-35-E was flowing salt water from the well to the pit. A subsequent inspection of the well did reveal that there had been a flow of water from this well.

Would you please check into this matter at your earliest convenience and inform this office as to what measures will be taken to correct this water flow.

Yours very truly,

OIL CONSERVATION COMMISSION

Joe D. Ramey
Supervisor, District 1
