Abstract

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of reworking, with the reasons for the work and its results. If there were any changes made in the casing, state fully, and if any casing was sidetracked, or left in the well, give its size and location. If the well has been dynamited, give date, size, position, and number of shots. If bures or bridges were put in, or test for water, state kind of material used, position, and results of pumping. Tagging is required to show the true position, size, position, and number of holes.
