REMARKS:

First production attained Sept. 6, 1950. Oil in stock tanks at 7:00 AM today was 1164 bbls. Form C-105 has not been filed because potential has not been taken; may want to wash with mud acid, - pull the 2 1/2" EV tubing and run 2" EV for better flowing characteristics and minimum GOR.

The undersigned certifies that the rules and regulations of the Oil Conservation Commission have been complied with except as noted above and that gathering agent is authorized to transport the percentage of oil produced from the above described property and that this authorization will be valid until further notice to the transporter named herein or until cancelled by the Oil Conservation Commission of New Mexico.

## INSTRUCTIONS

This form shall be executed and filed in quadruplicate with the Oil Conservation Commission at Santa Fe, New Mexico, covering each unit from which oil is produced. A separate certificate shall be filed for each transporter authorized to transport oil from a unit. After said certificate has been approved by the Oil Conservation Commission, one copy shall be forwarded to the transporter, one copy returned to the producer, and two copies retained by the Oil Conservation Commission.

A new certificate shall be filed to cover each change in operating ownership and each change in the transporter, except that in the case of a temporary change in the transporter involving less than the allowable production for one month the operator shall in lieu of filing a new certificate, notify the Oil Conservation Commission at Santa Fe, New Mexico, and the transporter authorized by certificate on file with the Commission, by letter of the estimated amount of oil to be moved by the transporter temporarily moving oil from the unit and the name of such temporary transporter and a copy of such notice shall also be furnished such temporary transporter. Such temporary transporter shall not move any more oil than the estimated amount shown in said notice.

This certificate when properly executed and approved by the Oil Conservation Commission shall constitute a permit for pipe line connection and authorization to transport oil from the property named therein and shall remain in full force and effect until

- (a) Operating ownership changes
- (b) The transporter is changed or
- (c) The permit is cancelled by the Commission

If any of the rules and regulations of the Oil Conservation Commission have not been complied with at the same time this report is filed, explain fully under the heading "REMARKS."

In all cases where this certificate is filed to cover a change in operating ownership or a change in the transporter designated to move oil, show under "REMARKS" the previous owner or operator and the transporter previously authorized to transport oil.

A separate report shall be filed to cover each producing unit as designated by the Oil Conservation Commission.

OFFICE OF MANAGER OF PRODUCTION

September 15, 1950

Oil Conservation Commission,  
State of New Mexico,  
Santa Fe, N. M.

Gentlemen:

Herewith is Form C-110, Certificate of Compliance and Authorization to Transport Oil, covering our Crossroads Pennsylvanian well, SFP RR No. 1-22, in quadruplicate and, authorizing the Magnolia Pipe Line Company to make tank connection and run the the oil.

This well is not completely cleaned up; an occasional run of the swab is necessary to pull slugs of accumulated drilling mud and water but it has been flowing up to 150 bbls. of pipe line <sup>oil</sup> during an eight hour period. We may have to wash producing zone with mud acid and replace the present 2 1/2" EU tubing with 2" EU before we attempt a 24 hour potential test. Therefore, we have not completed Form C-105 but will be forwarded the day the potential test is completed.

First production was obtained on Sept. 6, 1950; may we have the allowable effective that date?

Thanks.

Yours very truly,

L. J. Gude  
Gen. Supt.
