13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work, and approximate duration thereof. If the proposal is to deepen directionally or to complete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 90 days following completion of the involved operation. If the operation results in a multiple completion or re-completion in a new interval, a Form 1160-4 shall be filed following testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator determined that the site is ready for final inspection.)

We have already pressured up on this well, and know there is a hole in the tubing. We have a new partner joining us on January 1, 2001. He is supplying the money to return this well back to production. As soon after the first of the year as weather allows, we will be pulling tubing, and replacing what needs to be. We feel we can have this well producing within 60-90 days.

Approved For 3 Month Period
 Ending 3/15/2001
