RE: State "K" # 1
Unit Letter O , Section 2, Township 10 South, Range 33 East

Gentlemen:

Through routine inspection it has come to our attention that the above referenced well has been shut in for an extended period of time. A review of our records show that this well has not been properly Temporarily Abandoned. Producing wells can not be shut in for longer than a year.

The following options are available regarding the future disposition of this well:

1. Restore the well to production.
2. Set plug, conduct mechanical integrity test, and request temporary abandoned status.
3. Submit a proposal to plug and abandon the well, proceed with plugging on a timely basis after the proposal has been evaluated, amended and or approved.

To avoid further action, we request that you exercise one of the above options no later than May 21, 2000. We request that you notify this office 24 hours prior to any operation in order to witness the operation, either repair or plugging and pressure test upon completion of repairs or to request TXA status.

Very truly yours
OIL CONSERVATION DIVISION
