Gentlemen:

We are in receipt of a letter from the New Mexico Oil Conservation Commission (copy enclosed) advising us that Petro-Lewis Corporation did not submit Form C-104 indicating a change of ownership of the referenced well and that a final plugging report has not been filed on this well.

Under cover letter dated November 8, 1972, we forwarded five copies of Form C-104 properly prepared showing the change in ownership from Meadco to Petro-Lewis and requested that you sign them and forward to the New Mexico Oil Conservation Commission which apparently was never done. As owner of this well, it is your responsibility to file the necessary forms with the Oil Conservation Commission indicating the change in ownership and the final plugging report on this well. We feel that you have had ample time to handle this matter in the last three years and request that it be taken care of immediately.

Yours truly,
