5½" casing was pulled and top of the 5½" casing stub was located by Induction Log @ 5732'. Attempts to straighten up casing which was laying over in 21" + hole with a wall hook was abandoned after several days of fishing. Verbal permission was received from NMOC to spot 600 sx. cement plug from 5740' to 5623' on July 1, 1969. Plans are proposed to re-drill the hole below 5623'. This proposal will be covered by Form C-101 to be submitted in the near future.
