San Antonio, Texas 78230

Re: Ward Insall Com #1-D, Sec. 12, T9S, R34E

Gentlemen:

The above referenced plugged well has fluid seeping up around the pipe, making it necessary to re-plug this well to insure proper protection of the surrounding area.

We request that you re-enter and re-plug this well in a satisfactory manner, and that you have the operation completed within 30 days from the above date.

We request 24 hours prior notice in order to witness the operation.

Failure to comply with this request will result in a show cause hearing.

Very truly yours

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I

JS:bp

File

NOTE -- Jack Griffin inspected this well 3/1/93 and there was no evidence of a leak.

Jack Griffin indicated that after Tenneco was notified that the well was leaking they replugged it by drilling out to the shoe at 4050 and setting a plug. He witnessed the work. *Refer to daily trip reports for detail.*
