Attn: Mr. Jerry Sexton

RE: Plugging and Abandonment
Ward Insall Com. Well No. 2
12-9S-34E

Dear Mr. Sexton:

In response to your letter dated August 8, 1983, I am sending you a detailed history of the subject well's plugging record and revised Form C-103.

Estoril acquired this wellbore from Tenneco and the only pre-plugging record I have is the scout ticket (enclosed.) I have developed the enclosed schematic to the best of my knowledge from the plugging service record and wireline tickets. There is no record of a CIBP set.

I have not yet been able to fill out your final location checklist, but will do this as soon as possible.

Your cooperation has been appreciated in this matter.

Yours very truly,

ESTORIL PRODUCING CORPORATION

Gentlemen:

The attached Form C-103 covering the plugging and abandoning of the Ward Insall Com Well No. 2 located in Unit A of Section 12, T-9-S, R-34-E, is being returned for additional information.

Please check to see if a cast iron bridge plug was set in the hole and if so, show where it was set. Also, please show how much pipe was pulled.

Yours very truly,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District 1
