Gentlemen:

Commission Order No. R-3795 states that until a standard unit is formed or a non-standard unit is approved by the Oil Commission all wells in the East Bagley Pennsylvanian Pool will receive no more than one fourth the top pool allowable. Therefore, effective August 1, 1969 your allowable has been reduced to 74 barrels per day.

Commission Order No. R-3795 also states that unless a standard 160 acre unit is formed or a non-standard unit approved by the Commission within 60 days of the effective date of the Order, the allowables for wells failing to meet this stipulation will be cancelled. The effective date for compliance with this Order is September 15, 1969.

Yours very truly,

OIL CONSERVATION COMMISSION

Joe D. Ramey
Supervisor, District 1
