17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

The Gulf State No. 1 is currently temporarily abandoned due to down hole mechanical problems. Economics will not justify an extensive workover to return well to production from the Lower Penn intervals; however, recent workovers in the immediate area show that production is being obtained from the Permo-Penn interval. Logs indicate that this well contains an interval in the Permo-Penn that is possibly productive. AFE to P&A well has been submitted to Working Interest Owners; however, due to evaluation, adequate partnership approval to plug & abandon has not been obtained to date. As a result it is requested that an additional 90 day extension of temporarily abandoned status be granted until approval from Working Interest Owners can be obtained and obligations met in accordance with original farmout agreement.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
