<p>17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.</p>																		

The Gulf State No. 1 is currently temporarily abandoned due to down hole mechanical problems. Economics will not justify a major workover to continue production from the Lower Penn intervals; however, recent workovers in the immediate area show that production is being obtained from the Permo-Penn. A review of the Gulf State #1 log shows a small stringer that is possibly production in the Permo-Penn. As a result, it is requested that a 120 day extension of the temporarily abandoned status be granted until combination workover, testing and plugging AFE can be approved by Working Interest Owners and obligations met in accordance with original farm out agreement.

8. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
