17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well was shut down on 11-3-76 due to low production rate. However, due to casing problems in Well No. 1, the only other well on the lease, it is desired to keep Well No. 2 and not permanently abandon it. Present plans are to restore well No. 2 to production as soon as producing equipment is available from another well.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
