17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Producing equipment was removed from this well on 3-22-77. The well is believed to have recompletion prospects and, as there is only one other well on the lease, it is desired to keep this well as a back up should casing failure or other problems result in loss of well No. 2 which is presently producing.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
