(NOTE: Report results of multiple completion or zone change on Form 9-330.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Production from the Webb Federal #1 is out of the Penn perms @ 9772-94' and has declined to a point when continued operation of the well would no longer be economical for Coquina Oil. A geological survey was made and no additional zones warrant any further testing.

On February 6, 1979, Coquina filed a request to plug and abandon the well for the above stated reasons and on February 27, 1979, approval to proceed with plugging operations was granted.

Before plugging operations began, Coquina received notice of the interest of certain parties in the purchase of this well. On September 24, 1979, the Webb Federal was sold to John Bissett, P.O. Box 1055, Lovington, New Mexico, 88260 who is at present the operator.

As a result, Coquina respectfully requests the withdrawal of Form 9-331, dated February 6, 1979, requesting to plug and abandon the Webb Federal #1
