NOTE: Should waivers from the surface owner and all operators within one-half mile of the proposed injection well not accompany this application, the New Mexico Oil Conservation Commission will hold the application for a period of 15 days from the date of receipt by the Commission's Santa Fe office. If at the end of the 15-day waiting period no protest has been received by the Santa Fe office, the application will be processed. If a protest is received, the application will be set for hearing, if the applicant so requests. SEE RULE 701.

Re: Application to Convert
SFPRR No. 15 to SWD

Dear Mr. Harton:

Santa Fe Energy Company is applying to convert its SFPRR No. 15 well to salt water disposal (SWD) into the San Andres formation at an approximate depth of 5000'. SFPRR No. 15 is in the West Sawyer (San Andres) Field and is located in Unit B, Sec. 34, T-9S, R-37E, NMPM, Lea County, New Mexico.

Please find attached New Mexico Oil Commission Division Form C-108, "Application to Dispose of Salt Water by Injection Into a Porous Formation".

Sincerely,

Hugh L. Boyt
District Production Manager

MEMORANDUM

APPLICATION TO
CONVERT TO SWD

TO: OPERATORS AND ATTORNEYS

FROM: JOE D. RAMEY, SECRETARY-DIRECTOR

SUBJECT: APPLICATIONS FOR APPROVAL OF SECONDARY RECOVERY OR SALT
WATER DISPOSAL INJECTION WELLS

The Commission has delayed revising its Rules and Regulations relative to injection wells because of the impending U. S. Environmental Protection Agency Underground Injection Control Regulations. During the interim before those regulations may be finalized, the following policy shall apply to applications for approval of injection wells whether by hearing or by administrative order:

4985 X.2 #/ft =
= 997 PSI
USE 1000 PSI

(1) No surface injection pressure greater than 0.2 psi per foot of depth to the top of the injection zone will be permitted unless there is strong evidence that the strata confining the injection fluid has a fracture gradient which would support a higher pressure.

WELL DATA
SHEETS ATTACHED
ON ALL OFFSET
WELLS AT OR WITHIN
1/2 MILE RADIUS.
ALL OFFSETS ^{ARE} OPERATED
BY SPEC. & WERE DRILLED
AT ABOUT THE TIME #15
WAS DRILLED

(2) That applications must include a tabular summary of all wells within one-half mile of the injection well(s) and which penetrate the injection zone showing all casing strings, setting depths, sacks of cement used, cement tops, total depth, producing interval, well identification, and location. Applications for expansion of projects need not include the tabulation if the same is on file and no additional wells are included.

NO PLUG
WELLS WITHIN
1/2 MILE

(3) Application must include a schematic of all plugged and abandoned wells within the one-half mile radius and which have penetrated the injection zone showing all information required under (2) above plus the size and location of all plugs and the date of abandonment. Applications for expansion of projects need not include the schematics if the same is on file and no additional wells are included.

Army Worker Guilty

KANSAS CITY, Mo. (AP) — A former am- munition plant worker has pleaded guilty to partic- ipating in one of two schemes to defraud the Army out of hundreds of thousands of dollars.

James E. Lewis III, former administrative branch manager for the Westinghouse Electric Supply Co., was one of five employees of Remington Arms Co. and Westinghouse indicted last week on charges of conspiracy and defrauding the Army.

Lewis agreed to cooperate with the government months before the indictments were handed up, said Assistant U.S. Attorney Robert Schneider.

He said Lewis, who appeared Monday before U.S. District Judge Howard F. Sachs, would be put on probation, will have to pay no more than \$200 restitution and still faces the possibility of a fine up to \$10,000.

Remington operates the Lake City Ammunition Plant under a contract with the Army and is reim- bursed by the Army for its expenses. Westinghouse supplied electrical goods to Remington.

The five men are charged with submitting \$273,000 in bills to Remington for goods that never were delivered or that the defendants kept and used for themselves, prosecutors said. Remington paid the bills and was reimbursed by the Army.

Two of the defendants also have been charged with defrauding the Army of more than \$200,000 by submitting inflated bills for electrical equipment sold to Remington.

Four defendants have been charged with more than 24 counts each of conspiracy, mail fraud and defrauding the Army. Each count carries a maximum penalty of five years in prison and fines up to \$10,000.
