Gentlemen:

Recently an Oil Conservation Division representative made an inspection on the above referenced plugged well site in an attempt to release the location.

However, prior to the release the work listed below needs to be completed.

1. Remove all junk and equipment from location (flowline, pipe risers and abandoned battery).

Please inform our office when these procedures have been completed by signing the bottom portion of this letter and return it to our address listed above.

Very truly yours,

JERRY SEXTON
District I Supervisor
