Att: Mr. Joe D. Ramey

Re: Amoco State #3  
Sec. 10, T-9-S, R-33-E  
Lea County, New Mexico

Dear Mr. Ramey:

The above described well was drilled originally as a Bough "C" test. After production testing the Bough "C", the well proved to be non-commercial in that formation. Since that time we have plugged the Bough "C", reperforated and treated the ABO formation. Because this well was originally drilled as a Bough "C" test and the location is not within 200 feet of the center of the Southwest quarter (SW $\frac{1}{4}$ ), we respectfully request approval for a nonstandard location. The necessary forms (C-102, C-103, C-104) have been filed with the Hobbs office.

Very truly yours,

HANSON OIL CORPORATION

Ray Willis  
Vice President, Production
