

5. WATER SUPPLY

Water for drilling will be purchased from Kenneth Tank Service, Crossroads, New Mexico, telephone 505/675-3366. By trucking the water, it will not cause any additional surface disturbance.

6. SOURCE OF CONSTRUCTION MATERIALS

Caliche for surfacing the road and the well pad will be obtained from existing pit in the NW 1/4 NW 1/4 Sec. 21, T9-S, R37-E. The pit is on land owned by Mr. W. E. Bilbrey. Location of the pit is shown on Exhibit "B".

7. HANDLING WASTE DISPOSAL

- (A) Drill cuttings will be disposed of in the drilling pits.
- (B) Drilling fluids will be allowed to evaporate in the drilling pits until pits are dry.
- (C) Water produced during tests will be disposed of in the drilling pits. Oil produced during tests will be stored in test tanks until sold.
- (D) Current laws pertaining to disposal of human waste will be complied with.
- (E) Trash, garbage, and junk will be buried in the burn pit and covered with a minimum of 24 inches of dirt.

8. ANCILLARY FACILITIES

None required.

9. WELLSITE LAYOUT

Exhibit "D" shows the location and dimensions of well pad, mud pits, reserve pit, burn pit, and location of major rig components. The reserve pit will be plastic lined. The pad and pit area has been staked and flagged.

10. RESTORATION OF THE SURFACE

Have contacted the surface owner and discussed building location and access road. Surface will be restored to a condition acceptable to surface owner. The area is presently being cultivated.

11. MISCELLANEOUS INFORMATION

- (A) Topography - Land is flat, elevation is 3967, see Exhibit "B" Topographic map.
- (B) Soil - Is a deep fine sand underlain by caliche and is under cultivation.
- (C) Ponds and Streams - None in the area.
- (D) Archeological, Historical & Cultural Sites - None observed in the area.
- (E) Surface Ownership - Mr. R. F. Hardberger III, Box 190, Beaver, Oklahoma.
