17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Tipperary Oil & Gas Corporation drilled this well, their No. 1 State "28", to a depth of 13,531'. The well was to be plugged and abandoned. N. M. Salt took over the hole and ran 13,531' of 4 1/2-inch N-80 casing to T.D. Cement was brought up to a level above the 8 5/8-inch intermediate casing which had been cemented to surface. N. M. Salt will perforate and acidize and install 2 7/8-inch O.D. plastic-lined tubing for water injection. Tipperary ran 12 3/4-inch to 427' and 8 5/8 inch intermediate to 4206'. Cement was circulated on both strings of casing.

** Inert Fluid will have to be placed behind Tubing.*
