RE: Plugging
Sawyer #1-K Sec. 27, T9S, R36E
Dessie Sawyer #2-K Sec. 27, T9S, R36E

Gentlemen:

The plugging company which you hired to plug and abandon the above-referenced wells moved off the plugging job before the abandonment of the wells was completed.

These wells are in your name and the responsibility of plugging remains with you.

The casing cut plug and intermediate casing shoe plug were not set on these wells leaving the possibility of fresh water pollution and fluid migration in these well bores.

Please finish the plugging of these wells within 30 days to prevent the possibility of the above from happening.

If the wells are not plugged within this time frame I will recommend a show-cause hearing on why the state should not plug the wells and ask for forfeiture of your plugging bond to pay the expense.

Very truly yours,

OIL CONSERVATION DIVISION
