Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

As of July 22, 1982, the Bough "C" Unit #1 was pumping at a rate of 10 barrels of fluid per day with a trace of oil show. At present, an ongoing reservoir study of the area is under evaluation. A meeting with the partners in the well will be held in the near future to decide what final actions are to be undertaken. As soon as this decision is reached, a Sundry Notice will be filed to appraise you of the pending action to be taken.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
