RE: RAE #1, UNIT P,  
S23, T11S, R32E

Gentlemen:

An Oil Conservation Division representative made an inspection on the above referenced plugged well site in an attempt to release the location.

Prior to this release, the following items need to be completed.

1. Dry hole marker should state the correct unit letter or Qtr/Qtr section, (currently is incorrect, shown as 'E').
2. Remove 2 anchor markers.
3. Remove all junk and equipment (wire-rope, electric riser).

Please inform our office when this work is complete by signing the bottom portion of this letter and return it to our address listed above.

Very truly yours,

JERRY SEXTON  
District I Supervisor
