RE: STATE "AR" #4  
UNIT K, S2-T11S-R37E

Gentlemen:

An Oil Conservation Division representative made an inspection on the above referenced plugged well site in an attempt to release the location.

However, the following items need to be completed before the location can be released.

Location should be clear of all junk.

Remove tank battery from location.

Fill and/or level cellar.

Fill and/or level pit.

Please inform our office when these procedures have been completed by signing the bottom portion of this letter and return it to our address listed above, or notify Ray Smith when the location is ready for inspection at (505) 393-6161.

Yours very truly,

JERRY SEXTON  
District I Supervisor
