Re: State A #1-K  
Section 34, T11S, R33E

Gentlemen:

We are still trying to clear all our files for the change from  
Petrus Operating Company, Inc. to Petrus Operating Company, L.P.

The above-referenced well is plugged and we had thought we would  
be able to release the location and not require a change of  
operator form. However, our inspection of the location made on  
February 24, 1987, indicates there still a considerable amount  
of junk on location along with some flowlines. This will have to  
be removed and the location reinspected before we can release it.

If you will correct the above and notify us, we will reinspect  
the location and release it. Otherwise, you will need to submit  
a change of operator for this well.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I
