RECEIVED

Gentlemen:

In answer to your letter of March 22, 1988 regarding the captioned well, we have evaluated the possibility of making a water disposal well out of this well and decided it is uneconomical at this date. However, we do plan to drill an offset well to this well to be spud in late June. Therefore, we would appreciate your approval to wait until the completion of this well to determine if we should plug and abandon the Clemmons Sunburst Federal No. 2 well.

Your approval would be appreciated. We appreciate your continued cooperation with our company.

Sincerely,

Ms. Jackie Midkiff
