Mr. J. C. ...
NMCCO District ...
P.O. Box 1981
Hobbs, New Mexico 88240

Dear Mr. ...:

Bobco International Inc. for whom I act as Agent in New Mexico wishes to assume cleanup responsibility for the subject well which was plugged within the last year. Currently Patterson has the cleanup responsibility. We wish to assume responsibility in order that we may begin an attempt to re-enter the well and test the San Andres Formation.

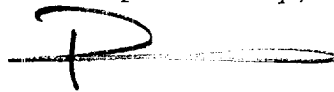

Please find enclosed the following forms:

1. 6 copies of form C-101 plus attachments.
2. 6 copies of form C-102

There should be a plug bond for the well on its way to Santa Fe now so you should hear from that Department in the near future.

Bobco would like to begin operations as soon as possible so your immediate attention to this permit would be appreciated. Please let me know as soon as we are cleared to begin work.

Respectfully,

Phelps White
